PROFILE SUMMARY

Targeting **React Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- Experienced **Front-End Developer** with a strong focus on **React.JS development** and a keen eye for design using Tailwind CSS. Skilled in building dynamic and responsive web applications, leveraging technologies like React Router, Redux Toolkit, and Context API for state management. Proficient in API handling, implementing robust front-end architectures, and delivering high-quality user experiences.

SKILLS

Programming: C++, OOPS, HTML/CSS, JavaScript, React.JS, MySQL
Tools: Redux-toolkit, React Router, React Hook Form, Context-API, Tailwind CSS, RESTful APIs, Git

PROJECTS

Weather App – Real-Time Weather Forecast Application

Tools: React.js, Tailwind CSS, REST API

Built a responsive web app to fetch and display real-time weather data by city using API integration. Implemented dynamic UI updates, search functionality, and clean interface for better user experience.

- Developed a React-based application to display real-time weather data using API.
- Implemented city-based search with dynamic data rendering.
- Integrated REST API to fetch live weather details like temperature and conditions.
- Designed responsive UI using Tailwind CSS for better user experience.
- Built clean and user-friendly interface with fast loading performance.

E-commerce Web Application with Product Filtering **May 2024- Sep 2024**
Tools React.js, REST API, Tailwind CSS
A web application to browse products, apply category filters, and view items with a responsive interface.

Responsibilities:

- Designed and developed the front-end using React.js with a clean and responsive UI.
- Implemented product listing and category-based filtering functionality.
- Integrated REST API to fetch and display dynamic product data.

Password Generator – Random Password Creation Tool
Tools: React.js, JavaScript, Hooks
https://currency-converter-one-kappa.vercel.app/
Built a web app to generate strong random passwords with customizable options.

Responsibilities:

- Developed a React-based app for generating secure passwords.
- Implemented logic using JavaScript and React Hooks.

- Added options for length and character selection.
- Generated random and secure passwords instantly.

EDUCATION

Pune University **Pune Maharashtra**
B.C.A *June 2027*
CGPA: 8.3
